Dear Team

I extend my greetings and salutations to your team for securing the first place in SUVC Pre-Virtual organized by RSTE in Gwalior.

As one of the guests present at the venue, I was delighted by the way in which you had presented the theme and concept of the Solar Vehicle. The concept is one of the much needed one as the fuel driven vehicles are emitting a sort of impure air which is one of many reason for global warming.

The way in which you had presented your innovative ideas, I immediately felt that I should be of help to you in some manner for your project.

I request you to kindly accept my offer of Rupees One Lakh (Rs.1,00,000/-) as a sponsorship for this wonderful venture.

With warm regards

Yours sincerely
