Our Department is the Anna University Recognized Centre of Research and has Six Research Centres - Clean Energy Centre, Centre for Measurements and Metrology, Biofuel Research Centre, Material Research Centre, Centre for Flexible Manufacturing System and Centre for Product Design and Analysis. Our Department is carrying out many Research projects funded by DST, AICTE etc.,

OBJECTIVES OF THE FDP

The course describes important manufacturing processes being industrially used today. The objective of the course is to put the most important manufacturing processes in to a context of a production environment. This course is a quantitative and qualitative study for the main manufacturing processes. It will illustrate how a design is turned into a product. It will offer a detailed understanding of manufacturing processes used in industry such as casting, molding, forming, cutting, and welding and will relate the design requirements of a part to the possible manufacturing processes. Successful completion of the FDP will provide the faculty with the benefits, limitations, and applications of different machine tools and engineering materials for product manufacturing.

RESOURCE PERSONS:

The sessions of this Faculty Development Programme shall be conducted by the team of eminent Academicians & Industry experts possessing in-depth knowledge in the area of Manufacturing processes.

ELIGIBILITY TO PARTICIPATE:

Faculty Members and Research Scholars belonging to AICTE approved Technical Institutions and UGC approved Universities & Industry persons can participate in the programme.

REGISTRATION DETAILS:

- No Registration Fee
